

## § 119.13

(2) SBA will evaluate how the research potentially will enhance microenterprise-oriented technical assistance services to disadvantaged entrepreneurs. Applicants must show the method(s), scope, duration, and implementation plans of the proposed research.

(3) SBA will evaluate applicant's plan of action incorporating original and secondary research. Applicants must show impact on improved access to microenterprise development services for disadvantaged microentrepreneurs, and the expected replicability/transferability of the finished product to the field.

(d) Applications for Discretionary Grants will be evaluated based on the goals and the viability of the project.

### **§ 119.13 How will an applicant make a subgrant?**

(a) An applicant that wants to make subgrants using PRIME grant funds must receive written approval from SBA prior to making subgrants. The applicant must identify the subgrantee(s) and describe in detail what the subgrantee(s) will do to help the grantee implement its proposal. An applicant must submit information to SBA demonstrating that, through the subgrantee(s), the grantee's program will:

(1) Provide expanded services to the community,

(2) Provide a method by which one or more previously unserved communities will gain access to the program, or

(3) Provide other specific benefits to the clients, such as specialized training, expanded schedules of operation, or other benefits.

(b) If an applicant has identified potential subgrantee(s) at the time it submits an application for a PRIME grant, the applicant must include the information requested in paragraph (a) of this section in the application. Otherwise, the applicant or grantee may submit the requested information at such time that approvals for subgrantee(s) are requested.

(c) A grantee may not use more than 7.5 percent of the assistance received under its PRIME grant for administra-

tive expenses in connection with the making of subgrants.

### **§ 119.14 Are there limitations regarding the use of program income?**

Program income, as defined in OMB Circular A-110, may only be used to further PRIME program objectives. As such, fees collected from clients, and other program income as defined, may be used to help fund the matching requirement. All program income, as defined, shall be reported on financial reports submitted to SBA and added to funds committed to the project by SBA and the recipient organization. However, any interest earned in excess of the maximum allowable amount as specified in the OMB circular incorporated into the grant must be returned to the Federal Government by the grantee.

### **§ 119.15 If a grantee is unable to spend the entire amount allotted for a single fiscal year, can the funds be carried over to the next year?**

(a) The grantee may request approval to use unexpended funds in the next budget period. This is permissible if funds are to be used for a non-severable, non-recurring project or activity within the scope of the PRIME program. Non-severable means a project in its entirety that cannot be subdivided. The request for using unexpended funds in the next budget period must include the following:

(1) SF 424, budget pages, and justification;

(2) Explanation of why the funds were not expended during the period in which they were awarded; and

(3) Evidence of match. The match requirement for funds carried over to the next budget period can be met by using any excess of matching funds from the current budget period, new matching funds, or a combination of both.

(b) The request must be made no later than 60 days before the end of the budget/project period or the de-obligation process will begin. Approved requests will require the issuance of a revised Notice of Award. Expenditures for funds carried over to the next budget period must be tracked separately.
